

Catalog entry

The catalog entry has been visually completely redesigned to simplify the beginning of your parts search. Instead of long lists, there are now search fields and dropdowns to make it easier for you to find the right part.

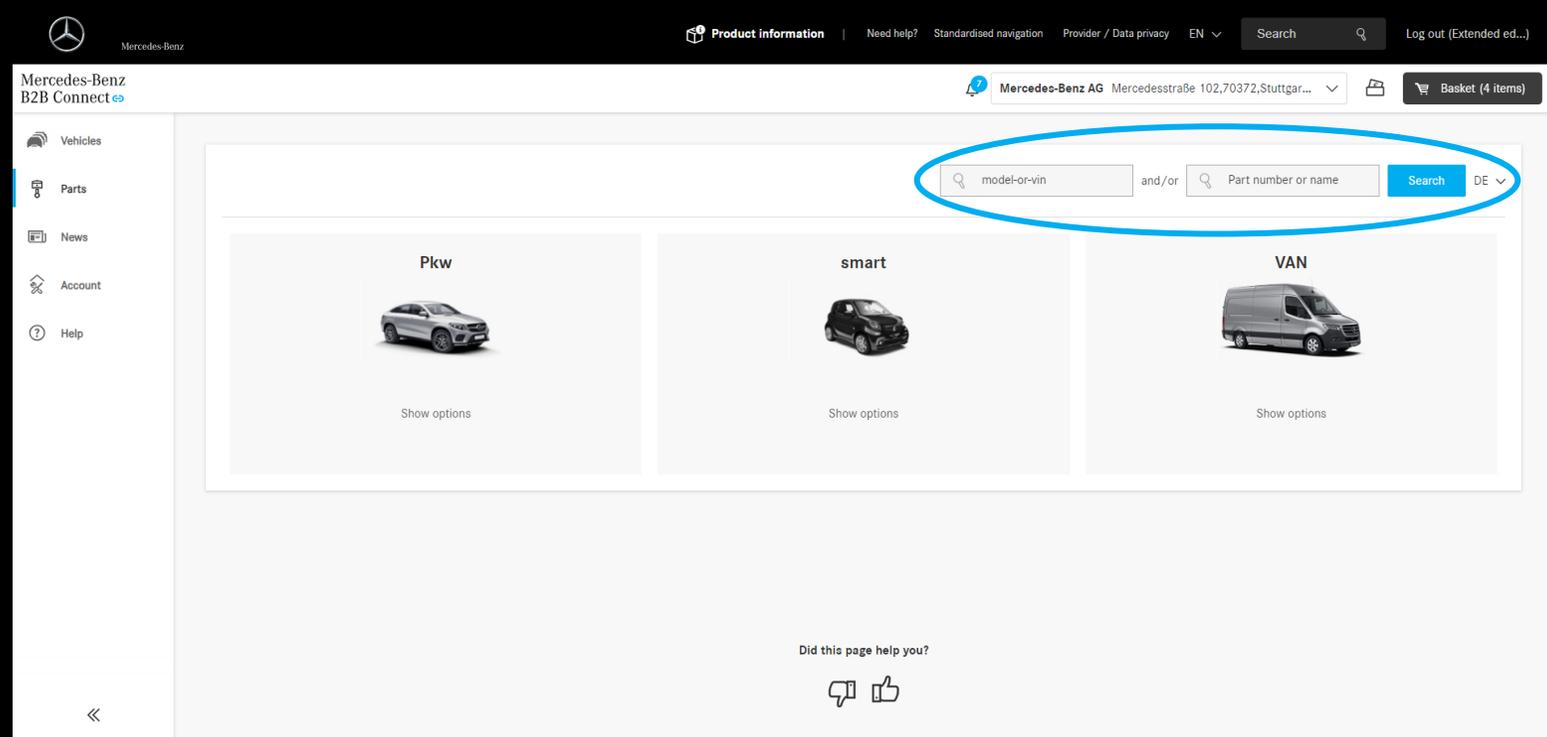

Catalog entry - Search

You can certainly start your parts search using the two search fields at the top of the home page.

In the first search field, start with a VIN or model. Previous entries are saved and displayed. As a result, you will be redirected to the catalog.

In the second search field you can enter part numbers directly or search for keywords. The results are displayed directly.

To provide the best results for your search, combine both search fields.

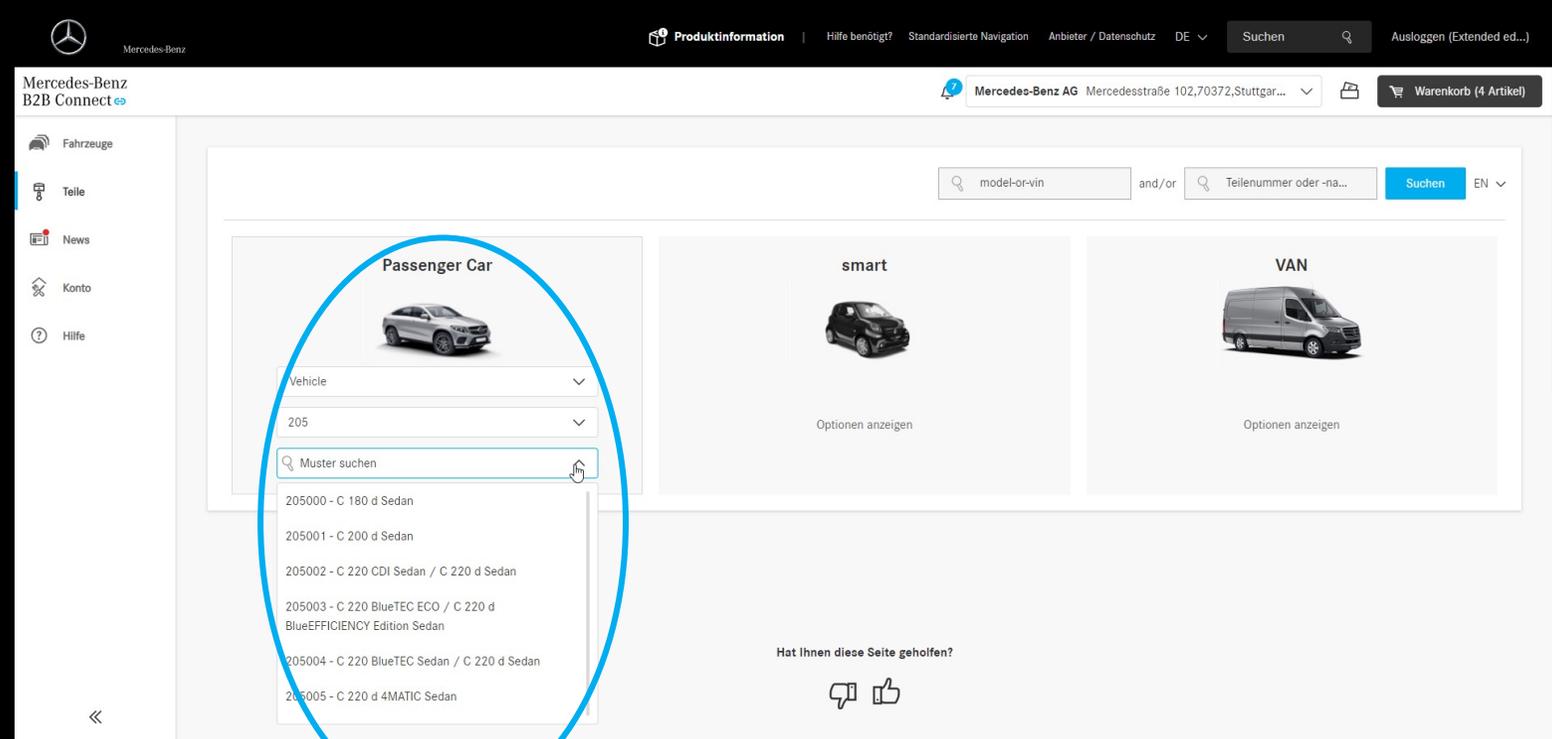

The screenshot displays the Mercedes-Benz B2B Connect website interface. At the top, there is a navigation bar with the Mercedes-Benz logo, 'Product information', 'Need help?', 'Standardised navigation', 'Provider / Data privacy', 'EN', and a search icon. Below this, the main header includes 'Mercedes-Benz B2B Connect', 'Mercedes-Benz AG Mercedesstraße 102,70372,Stuttgar...', and a 'Basket (4 items)' icon. The search area features two input fields: the first contains 'model-or-vin' and the second contains 'Part number or name', with a 'Search' button and a language dropdown set to 'DE'. A blue circle highlights these search fields. Below the search area, three product cards are displayed: 'Pkw' (with a car image), 'smart' (with a small car image), and 'VAN' (with a van image). Each card has a 'Show options' link. At the bottom, there is a feedback section with the text 'Did this page help you?' and thumbs up/down icons.

Catalog entry – series & model

If you do not know the series and model or looking for a special aggregate, you can use the three-stage selection within the dropdowns.

First, select the appropriate division by clicking on the corresponding image. The options for aggregate, series and model are then available to you.

The screenshot displays the Mercedes-Benz B2B Connect website interface. The top navigation bar includes the Mercedes-Benz logo, 'Mercedes-Benz B2B Connect', and links for 'Produktinformation', 'Hilfe benötigt?', 'Standardisierte Navigation', 'Anbieter / Datenschutz', 'DE', and a search bar. The main content area features three vehicle categories: 'Passenger Car', 'smart', and 'VAN'. The 'Passenger Car' category is highlighted with a blue circle, and its dropdown menu is open, showing a list of model options. The 'smart' and 'VAN' categories also have 'Optionen anzeigen' buttons. The bottom right corner includes a feedback prompt: 'Hat Ihnen diese Seite geholfen?' with thumbs up and down icons.

Parts catalog

In addition to the catalog entry, the catalog itself has also received a visual overhaul.

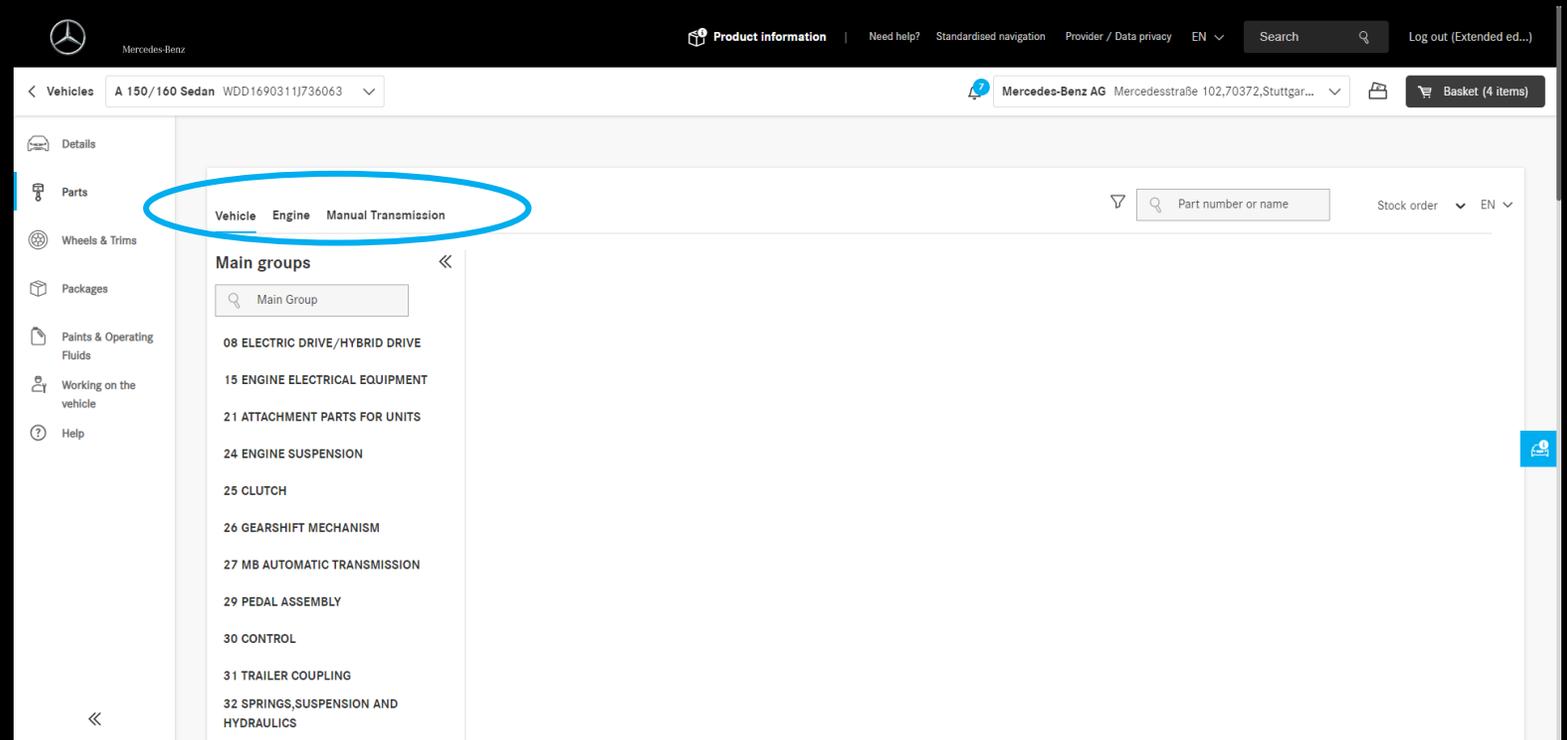

The main focus was on simple user navigation, including different main groups.

In addition, the categories were removed and the well-known aggregate structure was included.

Parts catalog – Aggregates

After you have entered the parts catalog, you need to navigate to the part you are looking for. First, select the corresponding aggregate in the header of the catalog. If the unit is not unique to the previously selected vehicle or model, you can select the fitting one.

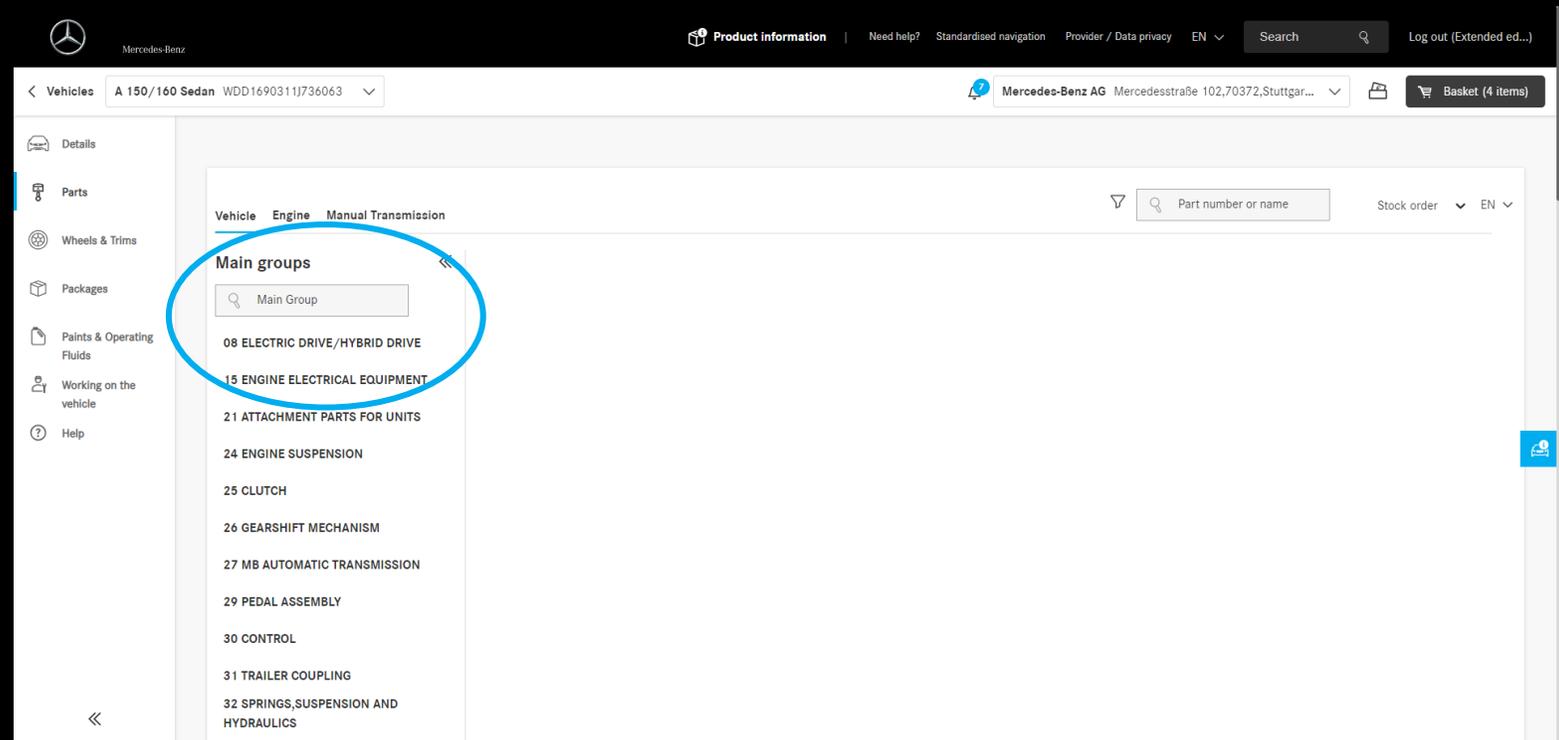

Parts catalog – Maingroups

On the left side you will now find a list of all main groups for the selected aggregate.

A search bar simplifies your navigation to the desired main group.

If you need more space on your screen for the drawing and parts list, you can also minimize the main group list to the numbers. By moving the mouse over the numbers, the names of the groups become visible again briefly.

The screenshot displays the Mercedes-Benz B2B Connect parts catalog interface. The top navigation bar includes the Mercedes-Benz logo, 'Product information', and various utility links like 'Need help?', 'Standardised navigation', 'Provider / Data privacy', and 'EN'. A search bar and 'Log out (Extended ed...)' are also present. The main content area is titled 'Vehicles' and shows a selected vehicle 'A 150/160 Sedan WDD1690311J736063'. Below this, there are tabs for 'Vehicle', 'Engine', and 'Manual Transmission'. The 'Main groups' section is highlighted with a blue circle and contains a search bar labeled 'Main Group' and a list of main groups:

- 08 ELECTRIC DRIVE/HYBRID DRIVE
- 15 ENGINE ELECTRICAL EQUIPMENT
- 21 ATTACHMENT PARTS FOR UNITS
- 24 ENGINE SUSPENSION
- 25 CLUTCH
- 26 GEARSHIFT MECHANISM
- 27 MB AUTOMATIC TRANSMISSION
- 29 PEDAL ASSEMBLY
- 30 CONTROL
- 31 TRAILER COUPLING
- 32 SPRINGS,SUSPENSION AND HYDRAULICS

The left sidebar contains navigation options: Details, Parts, Wheels & Trims, Packages, Paints & Operating Fluids, Working on the vehicle, and Help. The right sidebar shows 'Mercedes-Benz AG Mercedesstraße 102,70372,Stuttgar...' and a 'Basket (4 items)' icon.

Parts catalog – Subgroups

The selection of the desired subgroup takes place in the main area of the catalog and is supported by the preview of the exploded drawings. Once you have selected a subgroup, the corresponding drawing and parts list will be displayed. A change in drawings and subgroups is still maintained by using the slider that we presented to you in the last release letter.

The screenshot displays the Mercedes-Benz B2B Connect parts catalog interface. The top navigation bar includes the Mercedes-Benz logo, 'Product information', 'Need help?', 'Standardised navigation', 'Provider / Data privacy', 'EN', a search bar, and a 'Log out (Extended ed...)' link. The main header shows the selected vehicle: 'A 150/160 Sedan WDD1690311J736063'. The left sidebar contains navigation options: 'Details', 'Parts', 'Wheels & Trims', 'Packages', 'Paints & Operating Fluids', 'Working on the vehicle', and 'Help'. The main content area is divided into 'Main groups' and 'Subgroups'. The 'Subgroups' section is highlighted with a blue circle, showing a list of subgroups with corresponding exploded drawings. The subgroups listed are: 030 FRONT WHEEL BRAKE, 045 REAR WHEEL BRAKE, 060 BRAKE BOOSTER, and 064 HYDRAULIC UNIT. The 'Main groups' list includes: 08 ELECTRIC DRIVE/HYBRID DRIVE, 15 ENGINE ELECTRICAL EQUIPMENT, 21 ATTACHMENT PARTS FOR UNITS, 24 ENGINE SUSPENSION, 25 CLUTCH, 26 GEARSHIFT MECHANISM, 27 MB AUTOMATIC TRANSMISSION, 29 PEDAL ASSEMBLY, 30 CONTROL, 31 TRAILER COUPLING, and 32 SPRINGS, SUSPENSION AND HYDRAULICS. A search bar and 'Stock order' dropdown are visible in the top right of the main content area.

Parts catalog – order type

You can now change the order type in the catalog at any time. Immediate demand and stock ordering are the options available to you.

The screenshot displays the Mercedes-Benz B2B Connect parts catalog interface. The top navigation bar includes the Mercedes-Benz logo, "Product information", and various utility links like "Need help?", "Standardised navigation", "Provider / Data privacy", and "EN". A search bar and a "Log out (Extended ed...)" link are also present. The main content area is for a vehicle identified as "A 150/160 Sedan WDD1690311J736063". The left sidebar contains navigation options: Details, Parts, Wheels & Trims, Packages, Paints & Operating Fluids, Working on the vehicle, and Help. The main area shows "Main groups" for "Vehicle Engine Manual Transmission", with a search bar and a list of categories including "08 ELECTRIC DRIVE/HYBRID DRIVE", "15 ENGINE ELECTRICAL EQUIPMENT", "21 ATTACHMENT PARTS FOR UNITS", "24 ENGINE SUSPENSION", "25 CLUTCH", "26 GEARSHIFT MECHANISM", "27 MB AUTOMATIC TRANSMISSION", "29 PEDAL ASSEMBLY", "30 CONTROL", "31 TRAILER COUPLING", and "32 SPRINGS, SUSPENSION AND HYDRAULICS". A technical drawing of a front suspension assembly is shown with numbered callouts (40, 10, 30, 20, 50, 150, 100). A dropdown menu is open over the "Stock order" button, showing three options: "Stock order" (selected), "Immediate requirement", and "Immediate requirement".

Parts catalog – language selection

It is now possible to change the language of the parts catalog directly. All languages are available to you, regardless of the language selection in B2B Connect itself.

The setting only affects the elements of the parts catalog. Aggregates, main groups, subgroups and parts themselves are included.

Navigation elements in the header, sidebar and footer areas as well as all website content are unaffected by this language selection. For these areas, the language can be changed in the website header.

The screenshot displays the Mercedes-Benz B2B Connect parts catalog interface. The top navigation bar includes the Mercedes-Benz logo, "Product information", "Need help?", "Standardised navigation", "Provider / Data privacy", "EN", a search bar, and "Log out (Extended ed...)". The main header shows "Vehicles: A 150/160 Sedan WDD1690311J736063" and "Mercedes-Benz AG Mercedesstraße 102,70372,Stuttgar...". A sidebar on the left contains navigation options: Details, Parts, Wheels & Trims, Packages, Paints & Operating Fluids, Working on the vehicle, and Help. The main content area is titled "Main groups" and lists various vehicle components such as "08 ELECTRIC DRIVE/HYBRID DRIVE", "15 ENGINE ELECTRICAL EQUIPMENT", "21 ATTACHMENT PARTS FOR UNITS", "24 ENGINE SUSPENSION", "25 CLUTCH", "26 GEARSHIFT MECHANISM", "27 MB AUTOMATIC TRANSMISSION", "29 PEDAL ASSEMBLY", "30 CONTROL", "31 TRAILER COUPLING", and "32 SPRINGS,SUSPENSION AND HYDRAULICS". A diagram of a front suspension assembly is shown with numbered callouts (10, 20, 30, 40, 50, 100, 150). A language selection dropdown menu is open on the right side of the page, listing languages: EN (checked), DE, FR, ES, IT, PT, NL, DA, FI, NO, SV, EL, and CS. A blue circle highlights this dropdown menu.

Parts catalog – saving vehicles

If you entered the parts catalog with a VIN that is not yet saved in your vehicle list, you can do so quickly and easily in the catalog.

In the header you can click “Save” next to the VIN.

In addition to document services, you can also view an order history for this vehicles. You will also be informed about upcoming service or customer service measures in the vehicle list.

The screenshot displays the Mercedes-Benz B2B Connect parts catalog interface. At the top, the Mercedes-Benz logo and 'Mercedes-Benz' text are visible. The navigation bar includes 'Product information', 'Need help?', 'Standardised navigation', 'Provider / Data privacy', 'EN', a search bar, and 'Log out (Extended ed...)'. The main header shows the catalog entry for 'V 250VKL/L4X2 3200 WDF4478131308795' with a 'Save' button circled in blue. The left sidebar contains navigation options: Details, Parts, Wheels & Trims, Packages, Paints & Operating Fluids, Working on the vehicle, and Help. The main content area is titled 'Main groups' and lists various vehicle components: 15 Engine electrical system, 21 Major assembly detachable parts, 24 Engine suspension, 25 Clutch, 26 Manual transmission, 29 Pedal assembly, 30 Regulation, 31 Frame/trailer coupling, 32 Springs and suspension, 33 Front axle, and 35 Rear axle. A search bar for 'Part number or name' and 'Stock order' is present. The main content area also features a grid of part thumbnails, with '002 Front wheel brake' highlighted by a blue box. A large 3D exploded view of the front wheel brake assembly is shown at the bottom.

Parts catalog – Classic vehicles

In B2B Connect you can also store classic vehicles without digital data card. To do this, simply enter the VIN and, after checking that it is correct, save it in your vehicle list. You can now select and save the correct aggregates in the data card of the vehicle overview. This means you don't have to look up the unit numbers for every repair job to get to the correct part.

The screenshot shows the Mercedes-Benz B2B Connect interface for a classic vehicle. The top navigation bar includes the Mercedes-Benz logo, 'Product information', and links for 'Need help?', 'Standardised navigation', 'Provider / Data privacy', 'EN', a search bar, and 'Log out (Extended ed...)'. The main header shows 'Catalog entry' for '280 SE WDB12602212012619 (old vehicle)'. The left sidebar contains navigation options: 'Details', 'Parts', 'Wheels & Trims', 'Packages', 'Paints & Operating Fluids', 'Working on the vehicle', and 'Help'. The main content area is titled 'Main groups' and lists various vehicle components: 24 ENGINE SUSPENSION, 25 CLUTCH, 26 TRANSMISSION, 29 PEDAL ASSEMBLY, 30 CONTROL, 31 TRAILER COUPLING, 32 SPRINGS AND SUSPENSION, 33 FRONT AXLE, 35 REAR AXLE, 40 WHEELS, 41 PROPELLER SHAFT, and 42 BRAKES. The right sidebar shows the '280 SE' vehicle overview with a 'General' tab and a 'Technical' tab. A blue circle highlights the 'Select a catalog' dropdown menu, which is currently set to '287-STANDARD BIS 09/85'. Below this, there are 'Select' buttons for 'Engine', 'Manual Transmission', 'Automatic Transmission', and 'Steering'. A 'Notes' section is also visible at the bottom right.

Parts packages

The parts packages are now integrated into the page navigation.

The packages have the same design as the parts catalog itself. On the left you will find the main groups. You can browse these or collapse them to create more space on the screen.

In the main area of the window you will find the packages belonging to the main group.

Selecting a package opens the included parts list. Related packages are displayed, too.

The screenshot displays the Mercedes-Benz B2B Connect interface. The top navigation bar includes the Mercedes-Benz logo, 'Product information', and various utility links like 'Need help?', 'Standardised navigation', 'Provider / Data privacy', and 'EN'. A search bar and a 'Log out (Extended ed...)' link are also present. The main content area is titled 'Vehicles' and features a left-hand navigation menu with categories: 'Details', 'Parts', 'Wheels & Trims', 'Packages' (highlighted with a red circle), 'Paints & Operating Fluids', 'Working on the vehicle', and 'Help'. The main content area is divided into two columns: 'Main groups' and 'Packages'. The 'Main groups' column lists various vehicle components such as '00 MAINTENANCE', '13 BELT DRIVE, AIR COMPRESSOR', '15 ELECTRICAL COMPONENTS, ENGINE', '20 ENGINE COOLING', '25 CLUTCH', '32 SUSPENSION, DAMPER', '33 FRONT AXLE', '40 WHEEL, MEASUREMENTS', '42 BRAKES, MECHANICAL, HYDRAULIC', '46 STEERING', '47 FUEL SYSTEM', and '49 EXHAUST SYSTEM, GAS CLEANING'. The 'Packages' column lists specific service packages like 'SP_Replace air filter', 'Remove/install 2 road wheels (during Service A, with a wheel lift dolly)', 'Remove/install 2 road wheels (during Service B)', 'Replace first aid kit', 'Replace air filter', 'SP_Service A (Premium oil)', 'Remove/install 2 road wheels (during Service B, with a wheel lift dolly)', and 'Service A (Standard oil)'. A search bar for 'Part number or name' and a 'Stock order' dropdown are located at the top right of the main content area.

Paints & Fluids

Paints and fluids have found a new place in the navigation bar on the left side of the screen.

The design of the parts catalog is retained to ensure easy operation.

The main groups can be searched or collapsed.

If a main group has been selected, the subgroups are displayed in the main area of the screen.

By opening the subgroup, the list of paints and supplies is displayed.
