

# XENTRY

## Diagnosis Kit 4

Faster. Stronger. Better.

XENTRY Diagnosis Pad 2

High performance made easy.

The new hardware with its lighter weight and its powerful equipment ensures convenient and fast work in your workshop.

XENTRY Diagnosis VCI

Improved connection.

A second integrated WLAN card enables you to achieve a more stable connection between XENTRY Diagnosis Pad 2 and XENTRY Diagnosis VCI.

# The highlights of the new hardware.

With a high-performance processor, twice the main memory and SSD disk space, faster and more data-intensive working is no longer a problem.

## Enhanced performance.

**i5**

processor

**2**

WLAN cards

**1 TB**

SSD disk space

**16 GB**

main memory

## New cooling concept.

Passive cooling without fan,  
as with a smartphone.

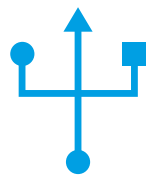

Multitouch display

## More options.

Water- and dust-protected  
housing

4 x USB 3.0 type A  
1 x USB type C

## Online updates in the background.

No more time-consuming Windows feature updates

Adaptations and optimizations run in the background through  
add-ons and Windows security updates
