

New Shopping Basket

- We've redesigned the shopping cart to make ordering even easier.
- The presentation is now clearer, and all items can be ordered in one step - regardless of whether they are parts for different vehicles or from different dealers. Individual articles, dealers or vehicles can be flexibly deselected and thus excluded from the ordering process.
- Non-parts such as diagnostic tools, digital products or equipment can now be found bundled and clearly sorted in the new "Workshop Supplies" tab.

The screenshot displays the Mercedes-Benz B2B Connect shopping basket. The header includes the Mercedes-Benz logo, navigation links (Product information, Need help?, Standardised navigation, Provider / Data privacy, EN), a search bar, and a user profile (Log out (B2B Testuse...)). The main content area is titled 'Basket' and shows two tabs: 'Parts (418)' and 'Workshop supplies (1)'. Below the tabs, there are action buttons: 'Import', 'Add part vi...', and 'Stock order'. A section for selection options includes checkboxes for 'Export selection', 'Print selection', 'Delete selection', 'Parts without VIN assignment', and 'Sold by: Autohaus Arnold GmbH, Hauptstraße 100, Neufahrn 84088 Customer ID: 12345'. The main table lists items with columns for Item, DG, LP/disc./NP (€), Qty., and Price (net). The first item is 'STEERING KNUCKLE' (A 212 332 08 00) with a quantity of 1 and a net price of 412.01 €. The table also shows a summary of list prices (484.72 €), discount (-72.71 €), total net price (412.01 €), and VAT (19%) (78.28 €).

My open support tickets

- Keep track of your support requests!
- B2B Connect provides you with a central overview of all your support inquiries.
- You can access it via the link in the support module on every help page.

The screenshot displays the 'My open support tickets' interface. On the left, a sidebar lists navigation categories: Mercedes-Benz Genuine Parts and Products, Payment & Billing, Software, Orders, Technical issues, and SERMI authentication. The main area on the right shows a list of open tickets with questions like 'I already have access to various workshop solutions...' and 'What is Mercedes-Benz B2B Connect...'. Below the tickets, a 'Need more help?' section offers to 'Contact your Mercedes-Benz Partner' (Autohaus Arnold GmbH) or 'Ask for help' with a 'Create a new support ticket' button. A blue circle highlights the 'Create a new support ticket' button.

VIN in order history

- The VIN is now visible in your order history!
- To help you identify the desired order more quickly, we've added the Vehicle Identification Number (VIN) to the order history overview.

Feature Hints – Order number switch

- Feature hints (automated tooltips) to point out and explain in an efficient way the functionality of a feature inside B2BConnect. The aim is to make it more understandable for our IOs.
- The main purpose of the feature hint is to underline not only the new features but also the ones that have been not used for some time.

The screenshot displays the 'Orders' section of the Mercedes-Benz B2B Connect interface. A feature hint tooltip is visible, pointing to a circular arrow icon in the 'Order number' column header. The tooltip text reads: 'You can click on the icon to switch between Order number and Job number.' The interface includes a sidebar with navigation options (Orders, Licenses, Company, Retailer, User, Settings, Help) and a top header with the company name 'Autohaus Cottbus (AHC) GmbH' and a basket icon. The main content area shows a table of orders with columns for Date, Status, Total, Order number, Details, Delivery type, and Rating. The table lists several orders with their respective dates, statuses (Pending, Confirmed, Cancelled), and total amounts.
