# Fra 07 august: Nye og forbedrede funktioner til dit daglige arbejde

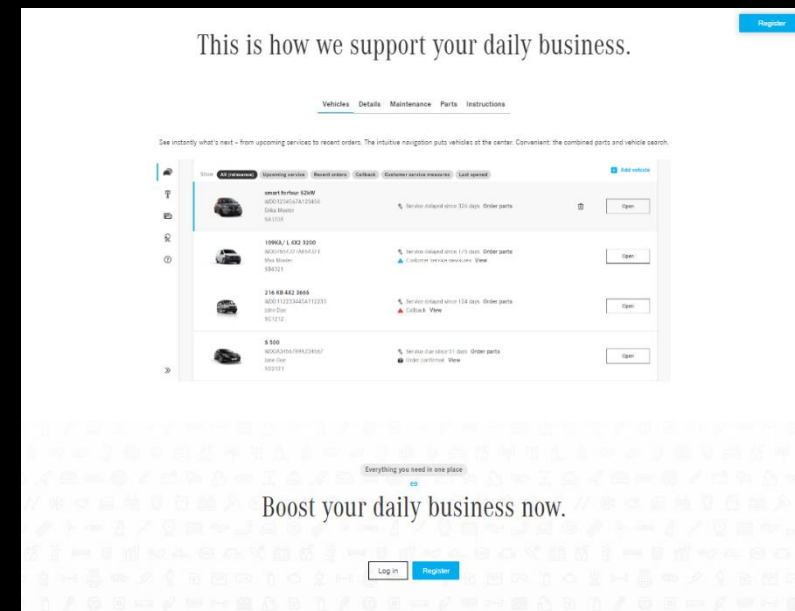

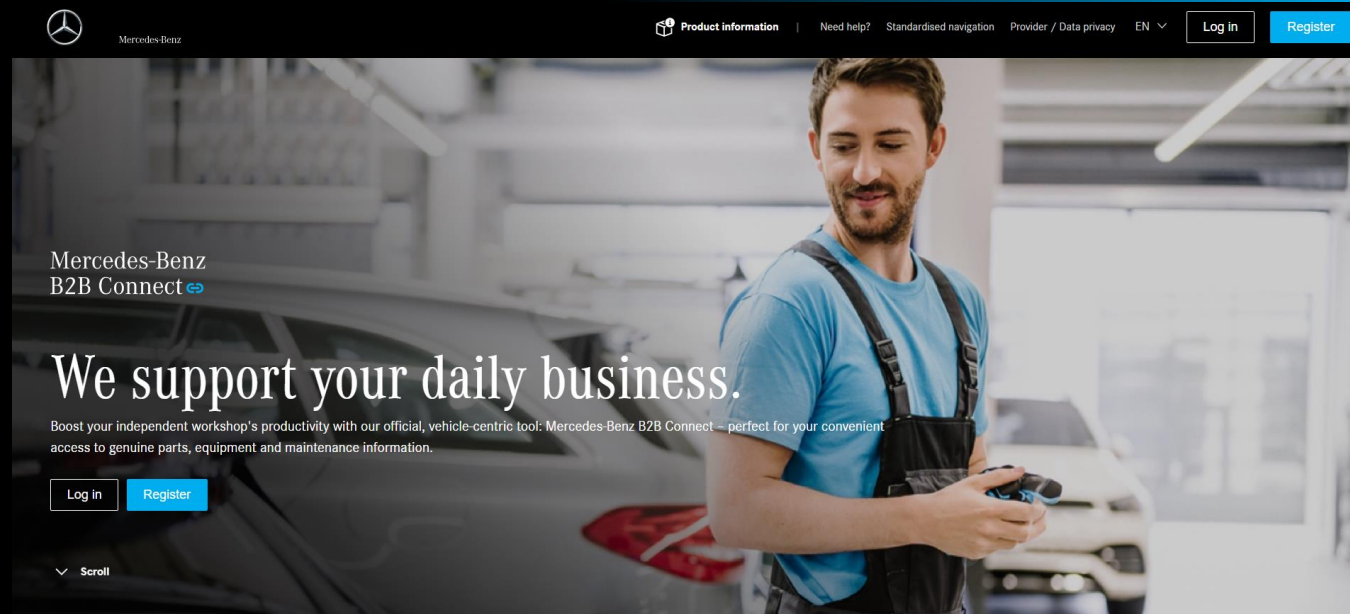

Siden januar 2023 har vi gradvist udviklet Mercedes-Benz B2B Connect med mange nye funktioner og et ændret udseende.

Den grundlæggende idé: Vi fokuserer endnu mere på kundens køretøj – for endnu mere effektivitet på dit værksted.

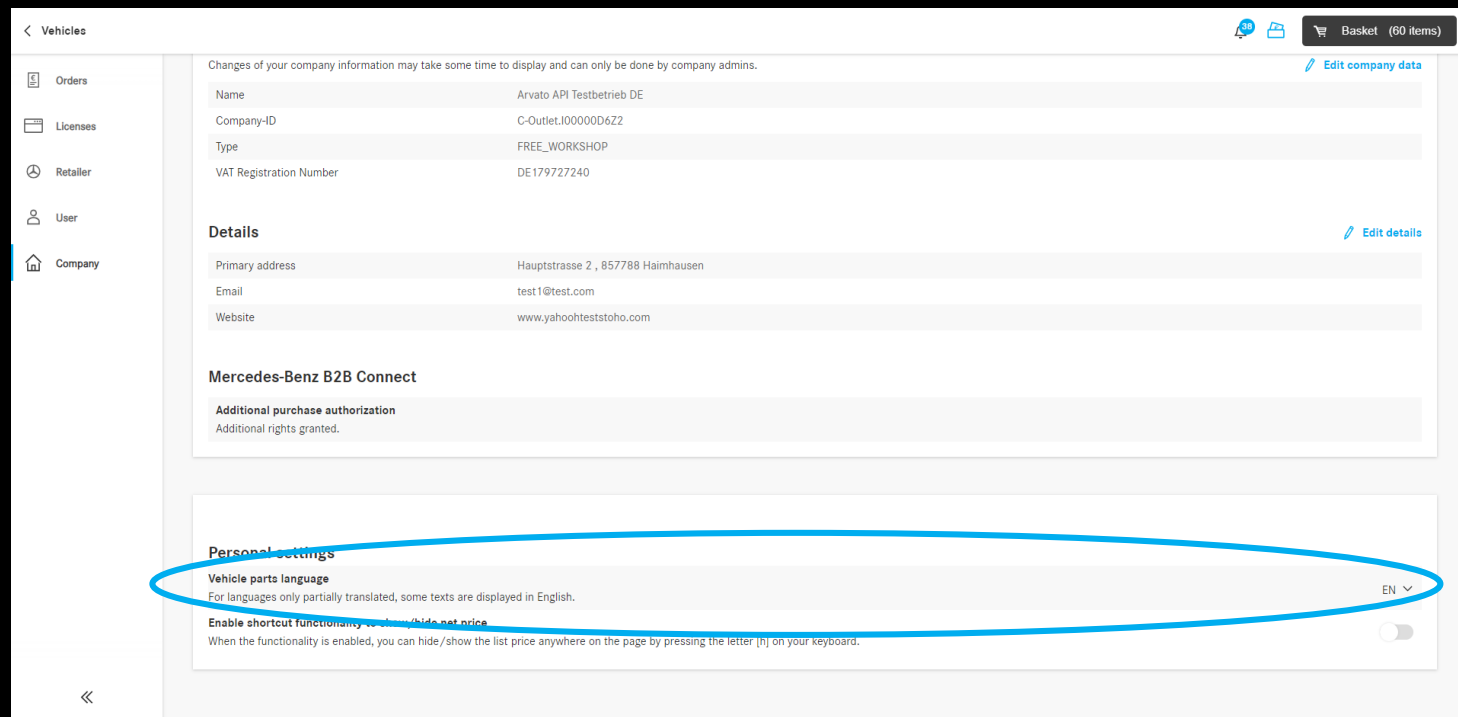

# Ny landingsside

Den offentlige landingsside vises i et nyt udseende. Fordelene for internetudbyderen og hovedfunktionerne i B2B Connect forklares og præsenteres på en slankere og klarere måde. Oplysninger præsenteres i tekst-, billed- eller videoformat. Login og registrering er stadig muligt. Kampagner, hvis de er tilgængelige for markedet, kan stadig ses i den offentlige sektor.

# Katalog over dele til sprogvalg

Tilpas sproget i reservedelskataloget. Gå til Virksomhed via konto, og vælg sproget for køretøjsdele i Personlige indstillinger.

# Optisk revideret markedskampagnebanner

Offentlig

Kampagnemodulet er blevet visuelt revideret. Det kan findes i både de offentlige og loggede områder. Hvis et marked placerer en capmagne, informeres internetudbyderne herom via banneret og kan se yderligere kampagneoplysninger via et linkout.

The screenshot displays the Mercedes-Benz B2B Connect website interface. At the top, a banner reads "Boost your daily business now." with "Log in" and "Register" buttons. Below this, a "New Campaign" announcement states: "We are happy to announce that we updated the design of our campaign module. You can find further details when following the linkout." with a "CLICK HERE" button. The page is divided into a header and a main content area. The header includes the Mercedes-Benz B2B Connect logo, a user profile "Mercedes-Benz AG", and a shopping basket with 11 items. The main content area features a search bar and a list of vehicles. The vehicles are displayed in a table with columns for vehicle details, service status, and actions.

# Slukningskoncept for ubrugte/åbne køretøjer

I tilfælde af inaktivitet af et køretøj i 2 år, vil køretøjerne blive mærket. Disse køretøjer kan stadig ses via et filter i køretøjslisten. Hvis internetudbyderen hverken åbner køretøjet eller klikker på knappen "behold", slettes køretøjet fra køretøjslisten efter yderligere 6 måneder. Køretøjet kan tilføjes tilbage til listen når som helst bagefter via knappen "tilføj". I tilfælde af sletning vil kun kommentarer, der er indsat i tekstfeltet på køretøjets detaljeside, gå tabt. Alle andre oplysninger (f.eks. DSB Historie) kan ses igen efter at være tilføjet igen.

# Oversigtsside for Hjælp

Via en ny side i sidebjælken "Hjælp" kan internetudbydere nu hurtigt se deres nuværende forhandlerforhold, herunder adresse, mail, telefon for at kontakte forhandleren direkte, hvis de har spørgsmål.

Derudover vises de mest almindelige emner i ofte stillede spørgsmål også for hurtigt at give internetudbyderen svaret på sit spørgsmål. I begge tilfælde kan du springe til detaljerede oplysninger eller FAQ-siden via et link.

The screenshot shows the 'Hjælp' (Help) section of the Mercedes-Benz B2B Connect portal. On the left is a sidebar with navigation links: Vehicles, Vehicle Parts, News, Account, and Help (which is highlighted). The main content area is divided into two sections. The first section, 'Selected retailer', displays the details for 'Autohaus Arnold GmbH', including its address, telephone number, and email. The second section, 'Most frequent topics', lists five common questions with links to their respective answers, each accompanied by an 'Account' icon and a dropdown arrow. A 'More help' link is also present at the end of this list.
